

COMPLETE

Visa Application Centre Appointment Checklist

Canada - Visitor Visa, biometric appointment day

Before your appointment

- Confirm your Visa Application Centre (VAC) location, date, and time
- Pay the processing fee and biometric fee, and complete the online application in full
- Check whether you're exempt from giving biometrics (e.g. recent reuse eligibility)
- Gather your document set (see the Document Checklist)

What to bring

Item	Notes
Passport	Valid, for identity verification and any visa counterfoil
Appointment confirmation	Printed or on your phone, per the VAC's instructions
Application confirmation	Your application/receipt number
Supporting documents	Financial, employment, and ties evidence - see the Document Checklist
Previous passports	If they show earlier Canadian or international travel
BIOMETRICS ONLY, USUALLY NO INTERVIEW Most Visitor Visa applicants aren't interviewed - your VAC visit is for fingerprints and a photo. Your application itself is assessed separately by an IRCC visa officer. In rare cases, IRCC may send a procedural fairness letter asking you to clarify or provide more evidence - respond by the given deadline if this happens.	

At the centre

- Arrive at your booked time
- You'll go through identity verification, fingerprint and photo capture
- Some VACs offer optional paid services (courier return, premium lounges) - these are optional add-ons, not required for your application to proceed

After your appointment

- Track your application status through your IRCC secure account
- If approved, check whether you received a visa counterfoil, an eTA-linked status, or further instructions - follow what your confirmation actually says
- If refused, see the Refusal Decision Guide (Premium tier)
